Impermanence, Change and the “New Normal”

The world is changing more rapidly than ever and in ways most of us have never imagined. Impermanence is always with us, often in ways we do not notice because the change is so gradual. Since March, however, the change seems to be coming at us with the speed of light. It has been difficult for many of us to keep up with the changes and it often feels overwhelming. We might say “I wish things would go back to normal again.” It seems likely that we will not go back to the normal we knew but will continue to move forward into what many people are calling the “New Normal”. That, of course, seems to change month to month, week to week and day to day.

As we know, the COVID-19 pandemic has left us without the ability to gather in large groups, with or without masks. This has affected all areas of our lives, including church services, sports, meetings, school, bon dance, Choral Fest, Lay Conference, concerts, restaurants . . . everything. We seemed to have lost everything . . . but did we really? As we have moved forward we may have thought that many of our favorite events would vanish. There are many activities that had to be completely cancelled but many other opportunities came our way through the magic of internet connection. Enter the World of Zoom.

For those who do not know about Zoom, it is a video conferencing software created for computers, initially to allow business meetings to take place at one time in one space without the need to travel. Rather like the idea of “tele-commuting” but with the advantage of using video cameras. Now it is being used creatively for social events. If you have ever used Skype or FaceTime, Zoom is similar except it can have many people involved in the process instead of only two people.

Meetings which used to be held face-to-face are now held through teleconferencing, requiring no driving or flying. Meetings can now be held from the comfort of your living room without wearing a mask or having a plane ticket to Oahu or the mainland. One of the most recent examples of the positive use of Zoom was the 2020 Lay Conference in September which was completely virtual through Zoom. Although

Remembrances

These last few months contained a lot of important remembrances of events that shook the world and one of hope for the future. August was 75th Anniversary of the dropping of the atomic bombs on Hiroshima and Nagasaki, an example of man's ignorance and inhumanity to man. The people who made the bombs had no idea of what they would do if dropped on a city full of people. Now the images of the effects of those bombs are burned into the earth and our human consciousness in the undying hope that the world will never see them be used again. War, I think, is the worst manifestation of the Three Poisons of Greed, Anger and Ignorance. Look at any conflict in the world, be it personal or international, you will find them there in some form, guaranteed. The Three Poisons are not an entity by themselves, like say the devil. We cannot blame the Poisons for making us do something. The Poisons live within us and we are responsible for how we react to them. First we must acknowledge that the Poisons do exist within us, after we do this, the battle against them is on. We must realize that the Poisons are always looking for a way to influence us and we must become able to recognize and defend against.

September 11, 2001 an event happened that shook the country up to its foundations. The attack on the World Trade Center buildings resulted in the death of some 3000 people and affected countless others. I think that it was the first time since the Civil War that an act of war has been committed on US soil. It seemed to make no sense at all but of course, there were causes and conditions that about. One cause might be the US's support of the past dictators of their countries who had no restraint in punishing innocent citizens of their country many of whom just disappeared never to be seen again. The US Government knew how these dictators were treating their populous and is held responsible for that support. The US continued supporting the Shah of Iran even after having been removed from office. Saddam Hussein was removed with the help of the US Government, but how many Iraqi lives were lost before the US involved itself. One of the ways these dictators held power was with a spy network that ran through out their countries. Criticize; say anything negative about the ruler or government and you could disappear, in a heartbeat. How would you feel if you had to live under such conditions and lost family members even? How would you feel about the countries that openly supported those rulers? Every event has causes and conditions attached to them.

On September 21, we celebrated International Peace Day with the ringing of church and Temple bells throughout the state of Hawaii. Peace is the only thing that will guarantee our survival in this world. Peace is a delicate flower that must start with each of us. As the Buddha showed, we have to learn to be peaceful by growing, nurturing peace within us and sharing peace with others. That is where our constant struggle with the Three Poisons comes in. It is not somebody else's responsibility to bring peace; it is ours, each of us.

Namoamidabutsu.

the majority of the conference had been planned and was ready to go early in the spring, the pandemic hit and brought a halt to all in-person meetings. With a complete change of plans the Lay Conference 2020 Committee pulled together a Virtual Conference in which there were over 120 participants. It was an amazing example of what the “New Normal” can look like when planned well. We walked away with wonderful information and a great respect for the planners.

When we look at having Virtual meetings, we should study the advantages and disadvantages of using a system like Zoom.

What are the advantages of Zoom?

The opportunity to see and be seen even though we are not able to physically be together; a way to visit with others yet stay safe

We can continue to see each other and conduct business even when there are “stay-safer-at-home” orders

Much less expensive, with less hassle, than going off-island for a 2-day conference

No line in the bathroom during breaks!

What are the disadvantages of Zoom?

No hugs for friends we may see only once a year.

No opportunity, this time, for individual one-on-one talk story time.

No chance to enjoy the delicious snacks provided by each island.

As we move forward no one can know what the future will look like. We can be sure the world will not return to the way it always was, with everything done as it was always done. We will need patience, with ourselves and with each other as we navigate through the next few months. Using video conferencing technology, such as Zoom, has shown us that there are alternative ways to accomplish tasks we previously thought could only be completed in a historically prescribed way. We have discovered new ways to meet, new ways to conduct services and new ways to share our Buddhist teachings. Let's look forward with anticipation to the future.

“When you can't do what you do, do what you can.”

Please help us welcome our new members:

Leanne Nishimoto-Liu and her daughter Taylor Nishimoto

When you see them, please welcome them to LHM.

BISHOP'S CORNER

“Pausing a moment to express gratitude”

At this time, I would like to express my gratitude and appreciation to all of you. If you are reading this message, your life and my life are somehow directly connected. More than likely, your support is enabling me to not only live, but carry out my life's work and responsibilities as the Bishop.

Needless to say, especially since late February and March, we are living in challenging times. The Coronavirus continues to spread and the death toll keeps rising all over the world including our own Hawaii. My deepest condolences to family and friends of those who have succumbed to COVID-19 and my well wishes to those who are struggling with the Virus right now. So many people are unemployed with much uncertainty of their livelihood, businesses are struggling, our healthcare professionals are pushed to the brink of sheer exhaustion, essential workers continue their important work filled (I am sure) with much anxiety, and even our Kupuna are doing their best to stay home and practice safety measures including good hygiene to help curb the spread of the virus so we can all be safer. Thank you, one and all, for your efforts!

To the Members and Friends of the Honpa Hongwanji Mission of Hawaii especially ministers, lay leaders, staff and volunteers, and those who are affiliated with the Hawaii Kyodan through our affiliated organizations including schools and adult care, I want to thank you for your continuing leadership, dedication, and perseverance. Your endeavors and support enables the Hawaii Kyodan to continue being active and a contributing member of society during this Pandemic. From the mask-making to the food and meal distributions, and monetary

donations to those in need and online spiritual presentations of the Dharma by temples including special projects like the OBon Videos, Mahalo Videos, and promotion of Peace Day which provide much needed comfort, support, guidance and assurance in this, almost, unparalleled time filled with natural disasters of hurricanes and wildfires and also racial discrimination and tensions which too often are filled with violence and even death, your actions make a difference and are appreciated. Your support of the temples and HQs with your time, energy, commitment including financial contributions and leadership is truly appreciated. I would also like to thank everyone for following the safety recommendations and guidelines that have been issued. I know it has not been easy and, unfortunately, we are not out of the woods yet. Let us persevere! May we be inspired by the example of the Bodhisattva Dharmakara (to become Amida Buddha) and persevere for the benefit of one and all. We will get through this! Our Hongwanji Sangha has survived previous epidemics and famines, religious persecutions, world wars and internal hurdles to carry out our purpose “The organization transmits the wisdom and compassion of Amida Tathagata to all people, and in doing so, contributes to the realization of a society in which everyone, both within and outside of the organization, is able to live a life of spiritual fulfillment.”

As I think about our purpose, I am reminded of the recent passing of some of our most outstanding members like Mrs. Rose Nakamura, co-founder and Founding Administrator of Project Dana and Dr. Fujio Matsuda, Former Trustee and Co-Chair of

Pacific Buddhist Academy's Capital Campaign to name just two to whom we have not been able to honor and express our gratitude to, due to the Pandemic. Today, I am recalling the words of the late Supreme Court Justice Ruth Bader Ginsburg who recently passed away too, who said "One lives not just for oneself but for one's community."

Last and by no means least, I would like to express gratitude to Amida Buddha who has changed my life as I find myself embraced by Unconditional Compassion and given the promise of Supreme Enlightenment. Who could have imagined, who could have guessed, who could have known that such a Wisdom and Compassion existed! Not I, but as someone (Shinran Shonin) very dear to us said, "How joyous I am...I have been able to encounter... already I have been able to hear...I am especially aware of the profundity of the Tathagata's benevolence. Here I rejoice in what I have heard and extol what I have attained." To one and all, please take care and, once again, from the bottom of my heart, thank you! Namo Amida Butsu/ Entrusting in the Buddha of Immeasurable Life and Infinite Light.

Virtual Nembutsu Seminar

Sponsored by the Honolulu & Oahu Hongwanji Councils
and the Office of Buddhist Education

SATURDAY, OCTOBER 17

9:00 to 11:30 am

GUEST SPEAKER:

Bishop Marvin Harada
Buddhist Churches of America

The Buddha's teaching is expressed at a deep and profound level of truth upon which Shinran Shonin and all of the Buddhist masters speak and write. However, the average person is looking for more of a practical approach to Buddhism. Will Buddhism help me to... live a happier life?...ease my stress and fears? ...live a more meaningful life? We all start from that level, and with those questions. How can we go from the practical level to the truth level of the teachings? In this seminar we explore those two levels of the teachings and how we can move from the practical level to the truth level.

PANEL FEATURING:

Reverend Kerry Kiyohara
Makawao Hongwanji

Pieper Toyama
former HHMH President &
PBA Head of School

Cristina Gervais
Sangha Activities Coordinator,
